

NUMIFORM 2016

The 12th International Conference
on Numerical Methods in Industrial Forming Processes

<http://numiform2016.utt.fr/>

ABOUT US

The NUMIFORM conference series introduced by Prof. O.C. Zienkiewicz in 1982 is taking place every three years at alternating locations around the globe. The NUMIFORM international conferences series aim to provide a forum where recent advances and future directions in the numerical simulations of manufacturing processes are discussed by engineers and scientists from industry and academia worldwide. The topics covered in the conference should be of great interest not only to numerical analysts but also to professionals and researchers involved in traditional and innovative manufacturing technologies for conventional and emerging materials.

During this 12th edition of NUMIFORM, which will take place in Troyes (France) July 4th – 7th 2016, in addition to the high level scientific and technical presentations and debates, an industrial exhibition will be organized in which companies have the opportunity to present their newest products related to forming technologies, display their new products and develop their contacts.

WHAT SPONSORSHIP CAN DO FOR YOU

As a featured sponsor, **[SPONSOR COMPANY]** would be prominently featured in front of a crowd of an estimated 300 and 400 attendants. NUMIFORM'2016 will be an outstanding opportunity to raise your brand's awareness. Whether you decide to choose Sponsorship à La Carte, Silver sponsor, Golden Sponsor, or Platinum sponsor, your company will have a highly visible presence.

Should you require any further information, please do not hesitate to contact the NUMIFORM'2016 team.

We look forward to welcoming you as one of our sponsors.

Kind regards,

The Organizing Committee of NUMIFORM'2016
